

Document

```
graph LR; Document[Document] --> Aspect1[Aspect 1]; Aspect1 --> QA1[QA pair]; Document --> Aspect2[Aspect 2]; Aspect2 --> QA2[QA pair]; Document --> Aspect3[Aspect 3]; Aspect3 --> QA3[QA pair];
```

The diagram illustrates a process where a single document is analyzed from multiple perspectives. On the left, a large white rectangle labeled 'Document' is the starting point. Three arrows originate from its right side, each pointing to a smaller white rectangle labeled 'Aspect 1', 'Aspect 2', and 'Aspect 3' respectively. From each aspect box, an arrow points to a stack of three white rectangles, each labeled 'QA pair'. The entire process is contained within a light blue rectangular frame.
